Golf

Dear Kings Point Golfers:

I hope everyone is enjoying the improvements to the Par 3 Golf Course. Bill Jeffrey and his team did a fantastic job! The Executive Course will be closed March 2nd from 7AM - 12PM for a charity event. We have a few exciting updates for 2024! Membership cards are now available at the Par 3 Course for both courses. Please stop by so we can take your picture and create your membership card.

We now have a golf professional to provide lessons. Ross Sims has been playing golf for over 54 years. He attended the University of Miami on a full golf scholarship. Ross also worked as an Assistant Golf Professional at Bethpage State Park on Long Island which was the home of two US open championships. His contact information is available at both the Executive and Par 3 Courses.

Residents and members now have five (5) days in advance to book tee times. Please help golf maintenance by filling divots and repairing ball marks on greens. We are experiencing a lot of people wandering on the golf course after hours either hitting balls or just walking down the paths. This is NOT ALLOWED, and those folks will be dealt with by security and or PBSO. If you see this happening, please call one of these offices.

Best regards,
Jennifer Revolinski, Manager of Golf

Things to Remember:

Tee Time Phone...

Golf Etiquette...

Please be considerate of fellow golfers by repairing divots, raking bunkers etc. Play ready golf to help maintain a reasonable pace of play. Do not hit into other golfers or staff.

Golf Carts...

Please return golf carts after play is complete so that we can recycle them for other golfers.

Two Minutes Only ...Fishing for Golf Balls ...

Please be mindful that a two-minute time limit applies to looking for your golf ball hit into the water. Fishing for balls other than the ball you are playing is prohibited. **Alligators are always present.**

What is Vision 2050?

The Palm Beach County Transportation Planning Agency (TPA) is a federally-mandated public agency that works with partners across Palm Beach County, Florida and the United States to plan, prioritize and fund the transportation system.

Vision 2050 is Palm Beach County's Long Range Transportation Plan (LRTP). Public input during this process helps to shape the future of transportation in Palm Beach County over the next 25 years. The LRTP is federally required and forecasts where people will live and work, evaluating the existing transportation network, and identifies projects that will serve the future needs of the public. Updated every five years, the LRTP provides the TPA with a blueprint to address shifting transportation needs over the next two decades.

The LRTP includes both long-range and short-range strategies/actions that provide for the development of an integrated multimodal transportation system (including accessible pedestrian walkways and bicycle transportation facilities) to facilitate the safe and efficient movement of people and goods in addressing current and future transportation demand.

Public survey studies are ongoing. At the present time, surveys reveal 43 % of the respondents prefer walking as the favorite mode of travel. As for the highest priority for County leaders, respondents indicated that it is affordable housing. High on the list are also addressing traffic congestion and managing the county's growth and development. The public would also like to see new transportation options such as streetcars. As of December 2023, twelve agencies and municipalities have submitted plans for new projects to the TPA with a total of 550 project submissions. These applications are currently being evaluated and scored.

The LRTP is updated every five years. Currently the transportation funding for these work projects is \$4.1 Billion. For more information go to <https://palmbeachtpa.org/general/vision-2050/>
